1. Intel® vPro™ not supported. Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs. The specifications for Wi-Fi 6 (802.11ax) are draft and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ax devices. Only available in countries where 802.11ax is supported.

2. Intel® vPro™ not supported. WLAN requires separately purchased access point and Internet service. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices.

3. Requires Windows 10 Pro. See product QuickSpecs for notebook compatibility.

4. Separately purchased carrier service required. Connection requires wireless data service contract, network support, and is not available in all areas. Contact service provider to determine the coverage area and availability. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products or in all countries.

Product image may differ from actual product.

1. Feature is supported on select printers and may require purchase of an optional accessory. Mobile device needs to be connected directly to the WiFi network of a wireless direct-capable MFP or printer prior to printing. Depending on mobile device, an app or driver may also be required. Learn more at http://www.hp.com/go/businessmobileprinting.

2. HP 3000w NFC/Wireless Direct Accessory is compatible with select HP LaserJet Enterprise printers and MFPs with HP FutureSmart Firmware, introduced fall 2015 and later. For a list of supported devices, see http://www.hp.com/go/mobileprinting.

3. HP 3100w BLE/NFC/Wireless Accessory is compatible with select HP LaserJet Enterprise and PageWide Enterprise printers and MFPs with HP FutureSmart Firmware, introduced spring 2015 and later. For a list of supported devices, see http://www.hp.com/go/businessmobileprinting.

4. HP Jetdirect 2800w works with HP LaserJet printers and MFPs that are equipped with HP FutureSmart Firmware and a hardware integration pocket.

5. Mobile device must support near field communications–enabled printing (NFC), currently compatible with HP ElitePad and Samsung galaxy Note 3. For more information, see hp.com/go/mobileprinting.

6. Mobile device needs to be connected directly to the wi-fi network of a wireless direct-capable printer prior to printing. Depending on mobile device, an app or driver may also be required. Wireless performance is dependent upon physical environment and distance from the access point in the printer.

7. Requires an Internet connection to the printer. Feature works with any ePrint-capable supported device. Print times may vary. Some HP LaserJets may require a firmware upgrade. For a list of supported documents, and image types, see www.hp.com/go/eprintcenter. And for additional solutions, see www.hp.com/go/mobile-printing-solutions.

8. Wireless operations are compatible on both 2.4 GHz and 5 GHz frequency bands. Mobile device needs to be network connected or connected directly to the Wi-Fi Direct network of a wireless direct–capable MFP or printer prior to printing. Depending on mobile device, an app or driver may also be required. Some mobile solutions may require registration of service to enable solution. Learn more at http://www.hp.com/go/businessmobileprinting.

9. Wireless operations are compatible with 2.4 GHz or 5.0 GHz routers. App or software and HP ePrint account registration may also be required. Learn more at http://www.hp.com/go/mobileprinting.

10. Wireless performance is dependent upon physical environment and distance from access point, and may be limited during active VPN connections.

Warranty	The HP Limited Warranty terms and conditions for HP-branded options and accessories (collectively referred to in this HP Limited Warranty as "HP Options") are as set forth in the HP Limited Warranty applicable to the HP Option and included with the HP Hardware Product. If your HP Option is installed in an HP Hardware Product, HP will provide warranty service for either the period specified in the warranty documents (HP Option Limited Warranty Period) that shipped with the HP Option or for the remaining warranty period of the HP Hardware Product in which the HP Option is installed, whichever period is longer, but not to exceed three (3) years from the date you purchased the HP Option. The HP Option Limited Warranty Period starts from the date of purchase from HP or an HP authorized reseller. Your dated sales or delivery receipt, showing the date of purchase of the HP Option, is your warranty start date. See your HP Option Limited Warranty for details. To the extent permitted by local law, non-HP options are provided "AS IS." However, non-HP manufacturers and suppliers may provide warranties directly to you.	One-year limited warranty. Additional support is available 24 hours a day, seven days a week by phone as well as online support forms. NOTE: Certain restrictions and exclusions apply. Consult the HP Customer Support Center for details.	Your Option Limited Warranty is a 1 year (HP Option Limited Warranty Period) parts replacement warranty on any HP-branded or Compaq-branded options (HP Options). If your HP Option is installed in an HP Hardware Product, HP may provide warranty service either for the HP Option Limited Warranty Period or the remaining Limited Warranty Period of the HP Hardware Product in which the HP Option is being installed, whichever period is the longer but not to exceed 3 years from the date you purchased the HP Option.

Thin Clients

HP mt45 Mobile Thin Client

Achieve the perfect balance of form and function with the HP mt45 Mobile Thin Client. It's offers built-in collaboration features such as world-facing third mic, collaboration keys and loud speakers.

HP t430 Thin Client

Optimized for desktop virtualization and cloud-based applications, the intuitive HP t430 Thin Client is easy for end users to understand and simple for IT administrators to maintain.

HP t630 Thin Client

Optimize your cloud-based deployments with the powerful, highly configurable, and long lifecycle HP t630 Thin Client that's ready to support your business now and in the future.

HP t740 Thin Client

Deliver powerhouse performance to your graphics-intensive computing environments with the HP t740 Thin Client, our most powerful desktop thin client that supports up to six 4K displays.[1]

Product image may differ from actual product.

1. DisplayPort™ cables and displays sold separately. The HP t740 Thin Client must be configured with optional AMD Radeon™ E9173 PCI Express graphics card to support more than four displays.

2. Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

3. Optional features sold separately or as add-on features.

Workstations

HP Z2 Small Form Factor G4 Workstation

Get high-end performance in a compact device. Take on 3D design projects and work in multiple pro apps with ease. With near endless configurations, it's the ideal custom solution.

HP Z2 Tower G4 Workstation

Experience server-grade power in a desktop with impressive expandability. Cut through complex BIM, rendering and visualization projects with high-performance graphics and Intel® processors.

HP Z4 G4 Workstation

Perfect for engineering, visualization and Machine Learning, HP's most popular workstation delivers disruptive performance for a range of applications. With a broad feature set, you get all you need, nothing more.

HP Z6 G4 Workstation

No matter what the future holds, you have the performance you need. Ideal for VFX and rendering, the Z6 offers a range of processing power and the flexibility to expand components.

HP Z8 G4 Workstation

When you're on the brink of discovery, you need the capability to run complex simulations, handle advanced Machine Learning algorithms and process huge amounts of data on the fly. The HP Z8 doesn't disappoint.

HP ZBook 15 G6 Mobile Workstation

Our powerhouse ZBook thrives with heavy workloads from rendering to engineering to simulation. With room to grow, it's the only machine you'll ever need.

Workstations

HP ZBook 15u G6 Mobile Workstation

Our thinnest, lightest 15" ZBook ever provides true portability for people who push a typical office computer past the breaking point. Get room to work with a large screen and full-size numeric keypad.

HP ZBook 17 G6 Mobile Workstation

Our flagship ZBook is our ultimate laptop for those who need desktop performance on the go. Edit multiple content streams, manipulate complex data and develop in VR—on an impressive 17-inch diagonal screen.

HP ZBook x2 G4 Detachable Workstation

Introducing HP's most powerful detachable PC. With remarkable performance and versatility to push your favorite Adobe® applications to the limit.
